

We are happy to announce the launch of a new product.

Blacklist delist and surveillance service.

We know how critical it is to keep all your sending IPs and domains clear from the vast amount of various blacklists.

If you do not find the time and capacity to handle this critical issue in the daily work, we now offer a subscription based service to monitor and handle any reputation problems on your sending IPs and domains.

This is often a time consuming work which cannot be automated by robot systems (yet). Our team of skilled delivery experts will take care of this on daily basis by:

- Using look up tools reporting directly to mySMTP 24/7
- Combining bounce messages and feedback loops/complaints with blacklists to quickly solve problems
- Monitoring private block lists like Cloudmark and Proofpoint

Pricing monthly:

IPs + domains total:*	Price monthly:
1 > 5	€ 50 \$57 DKK 380
5 > 10	€ 63 \$ 71 DKK 465
10 > 20	€ 100 \$ 113 DKK 745
20 > 50	€ 134 \$152 DKK 1000
50 > 100	€ 202 \$ 228 DKK 1500

* How its calculated: eg. 10 IPs + 5 sending domains = 15

Invoicing

The delist subscription is invoiced monthly.

To order:

Please reply to this email to support@mysmtp.eu , and we send you a quote for accept.
